Advanced Refractive Effects Prediction System (AREPS) Wayne L Patterson SSC San Diego 262 INTRODUCTION In 1987, SSC San Diego provided the US Navy's operational fleet with its first capability to assess the effects of the atmosphere on the performance of electromagnetic (EM) systems

such as radars and radios

Introduction to Communication Systems

Communications systems design merges concepts from signals and systems, probability and random processes, and statistical inference. Given the broad applicability of these concepts, a background in communications is of value in a large variety of areas requiring "systems thinking," as I discuss briefly at the end of Chapter 1.

Navigating Wayne Portal - Library - Wayne Fueling Systems

Navigating Wayne Portal - Library Recent News tab contains communications from Wayne Fueling Systems.
